Disappears From Home

Earl Lutz, son of David Lutz of Lutzville, a young man who was subject to epileptic fits, ran away from home on Tuesday morning last and was last seen on Cedar Hill below the old woolen mill. Searching parties have gone forth with the hope of finding the unfortunate afflicted young man but up to time of going to press no trace has been found of his whereabouts. Neighbors' premises, byways, hills and mountains have been diligently searched and the river, which is high at present, has been dredged with the earnest hope of finding him.

Democratic Reception Tuesday, May 5, 1914

Hon. A. Mitchell Palmer, Candidate for U. S. Senator, Hon. Vance C. McCormick, Candidate for Governor, Hon. William T. Creasy, Candidate for Lieutenant Governor, Hon. William H. Berry, Customs Collector, will make a campaign tour of the County on Tuesday, May 5, coming from Fulton County to Everett, reaching Everett at 9.30 a. m. and holding a reception at the Union Hotel until 10.35 a. m. Leave Everett 10.35 and arrive at Bedford at the Grand Central Hotel at 11 a. m., where a reception will be given. Leave Bedford for Hopewell at 1.30 p. m., arrive at Hopewell 2.30, leave Hopewell for Riddlesburg 3 p. m. Arrive at Saxton 4 p. m. and leave that place for Huntingdon at 5 p. m.

These candidates are anxious to meet the Democratic ranks of Bedford County whose standard bearers they are seeking to be at the hands of the Democratic voters on May 19, next. This is a splendid opportunity for all Democrats to meet these men and hear them speak.

WAR RELICS

A Big Collection of Guns, Swords, Spurs, and Other Relics.

In the windows of Bedford's Little Antique Shop, 201 East Pitt Street, there is a fine collection of war relics—souvenirs of the Revolutionary War, the War of 1812, the first Mexican War, the War of the Rebellion, and the Spanish-American War. In addition to these relics of the principal American wars, there is a fine display of souvenirs from Mexico, brought to Bedford by S. C. Hulise. Mr. Hulise was for nearly two years Assistant Chief Engineer, and for a time in full charge of La Boquilla Dam, where some 4,000 Mexicans were employed on the work, which has already cost more than \$5,000,000, and it stands today uncompleted because of the Mexican revolution. A picture of this dam and many interesting photographs are displayed in the Pitt Street window of the antique shop, among them is a photograph of a Mexican rebel who compelled Mr. Hulise to make his picture, and later demanded the negative at the point of a gun.

The American war relics are the property of George M. Mann, and the one that he prizes most is a small sheet of paper that has turned yellow and brown, upon which is written these words:

Sept. 20, 1776.

To the Committee of Correspondence: This is to certify that I bought a Rifle Gun of Peter Smith to the price of five pounds, twelve shillings and six pence, which you will pay.

From yours,

ANDREW MANN, Captain.

To George Woods, Chairman.

Captain Mann commanded a company of Bedford County soldiers who fought with Washington's troops at the Battle of Brandywine and at Germantown. Mr. Mann values this great little receipt, written by his great-grandfather 137 years ago, more than any of his other historic relics. The gun was bought for the Revolutionary War. The Committee of Correspondence were Revolutionary committees that upheld the rights of the colonists. George Woods was an uncle of Dr. George Woods Anderson and Espy Anderson, Esq.

Walker-Stambaugh

A very impressive wedding ceremony was performed in Trinity Reformed Church, Osterburg, by the pastor, Rev. J. W. Zehring, immediately after the regular service on Sunday, April 26, when Rev. Adolphus Walker and Mrs. Della O. Stambaugh, both of Osterburg, were united in the bonds of holy wedlock, the beautiful ring ceremony of the Reformed Church being used.

Immediately after the ceremony, the congratulations and best wishes of their friends were extended, after which the couple went to their newly built bungalow near Osterburg, where they will reside.

The groom is a retired minister of the Reformed Church and the bride is the widow of the late Berdine Stambaugh. Both have spent most of their lives in this county and are well known.

Mrs. Susan H. McCreary

Mrs. Susan Hammer McCreary of Fishertown was born October 24, 1838, and died April 26, 1914. About two years ago she was stricken with paralysis but had recovered somewhat. For some time she had been in apparent good health. Her last illness was brief, being but a few minutes' suffering before she passed away. Her death was due to chronic valvular heart trouble.

Joseph McCreary, her husband, died a little more than six years ago. Their children, four sons and three daughters, survive and all were present at the funeral. They are as follows: Miss Mary McCreary of Sewickley, Mrs. Lucy Blattenberger of Fishertown, H. S. McCreary of Point, George of Springfield, O., Edward of Farrell, Mercer County, Miss Carrie, teacher in Hyndman, and Frank of Bedford. Two brothers and two sisters from Johnstown were present: George and Alexander Hammer, Mrs. Carrie Hubert and Mrs. Libbie Miller; also one nephew, Dr. C. W. Miller, of Homestead, and grandson, Dale McCreary, of Springfield, O.

She was a devoted wife and mother, a woman of strong character and led a consistent Christian life. Interment was made in the Union Cemetery in Fishertown, Rev. Brickley, her pastor, officiating.

Musings of a Non-Church Goer

"I would not live in a churchless town. My business would not be safe over night, and would soon go to smash. Conditions would not be safe for my wife and children. Weeds would grow up on the street, the town would be a joke. Yet I am here in slippers and easy chair, with Sunday newspapers scattered about insulting my intelligence with the so-called comic pictures, and the lurid pages of the lust begotten world. If all people were like me churches would close up; there would be no congregations. I know that I am under obligations to see that the church life of Bedford is maintained."

The churches of Bedford need your cooperation. Here is once they can't use your money, time or name. You can't send a representative. Nothing else but your presence will do. Go to church upon next Sunday.

MANY ITEMS OF INTEREST

Gleaned From Various Sources—Little Points Picked Up By Vigilant Reporters.

Don't forget the play "Rebecca's Triumph," at Assembly Hall this evening.

G. W. McClellan of West Pitt Street has been seriously ill, but is slowly improving.

Rev. Edward A. Snook will preach in Everett Presbyterian Church next Sunday at 11 a. m. and in Saxton same day at 7:30 p. m.

A marriage license was issued in Huntingdon last week to Umphrey Alroy Amick and Laura J. Steckman of Clearville.

Don't forget "Rebecca's Triumph" at Assembly Hall Friday evening, May 1. Go and enjoy the comical scenes between Irish "Katy" and colored "Gyp" as well as the more serious features.

Everyone should go early to the play at Assembly Hall this evening, in order to get a good seat, as the tickets have not been marked, and there is sure to be a large crowd present. Time, 8:15; admission, 25c.

The regular meeting of the Suffrage Party will be held in the L. T. L. Room, Brode Building, Friday, May 1, at 3 o'clock. Mrs. David Lee's class on Borough Government will meet at the same place at 2:30.

In sunny France and Italy they have villas, but not in Mexico, where Villa is pronounced "veeya." Huerta sounds as the English word "were" with a "ta" hitched on to it, making "wereta." We should say General Wereta and General Veeya. Carranza should be pronounced "carramba."

A Parent-Teacher Association meeting will be held in the school house next Tuesday evening at 7:30 o'clock. Wednesday afternoon at 1:30 o'clock Mrs. Walter LeRoy Smith of Malden, Mass., will address the patrons of the schools. She will explain the work of the national organization and discuss Child Welfare.

May 3 is go-to-church day in all the rural county side. Everybody go to church. Tell your neighbor your local club and friends. Call them on the phone. Schools notify pupils and teachers notify each other. May 3 is a country-wide, nation-wide, sea-to-sea wide, lake-to-gulf wide go-to-church day.

Woman Suffrage Meetings

Bedford County suffrage workers are planning a series of meetings in towns which have, as yet, had no demonstrations of this sort. For the second week in May Mrs. E. E. Kieran of Somerset, one of the most effective speakers at the service of the Woman Suffrage Party, is to address each meeting. She plans at present to speak in Everett, Hyndman, Mann's Choice, Schellsburg, Fishertown and Wolfsburg. More definite information concerning times and places of meetings will appear next week.

Annual Doll's Day

Monday afternoon of this week was a time which will long be remembered by the pupils of the first primary grade. It was "Doll's Day," an occasion which is annually celebrated by the little girls bringing their dolls and the entire school joining in entertaining their friends.

The room was tastefully decorated with the children's own handiwork and pictures of many who had been pupils in the past. Some of the children present had the pleasure of seeing the pictures of their parents when in the first grade.

A most excellent program consisting of songs, exercises and recitations was rendered. At the close of this Miss Bain told the children that she had a surprise for them. Mrs. H. C. Heckerman had invited each of them to a party in honor of her daughter Helen's birthday. All the were present and heard the children know how happy the children were. Ice cream, cake, candy and salted peanuts were served.

Mr. Cessna suggested that the children give three cheers for Mrs. Heckerman, which they did most heartily.

James T. Sheeder

James T. Sheeder died at his home in Everett on Monday, April 27, aged 67 years, two months and ten days. He was a son of Abner and Mary Sheeder, and was born in Huntingdon County February 27, 1847. He later moved to Saluvia, Fulton County, from which place he enlisted in Company M, 22nd a. Cavalry. He was united in marriage September 17, 1867, to Miss Charlotte Medlett, who, with the following children, survives: Mrs. H. E. Laher and Mrs. J. E. McDaniel of Everett, Mrs. James E. Ford of Coalport and Mrs. Jayne at home. One brother, J. E. Sheeder, is also living. He was one of the few surviving charter members of Everett Lodge, No. 524, F. and A. M., and also belonged to Lieut. Josiah Baughman Post, U. S. A. R.

The funeral services were conducted in the Everett M. E. Church yesterday morning at 10 o'clock by Rev. G. E. King, his pastor, assisted by Rev. M. A. Kieffer of the Reformed Church. Interment was made in the Everett Cemetery.

WITH THE STATE NEWSPAPERS

Whether Judge Eugene C. Bonnell's tongue ran away with his wit or he was simply carrying out a pre-arranged program of denunciation of the State organization of the Democratic party and of thinly veiled complimentary reference to Woodrow Wilson's administration, the municipal court judge of Philadelphia angered many of those who attended the reception to Michael J. Ryan and John E. Jenkins at the Young Men's Democratic Club Saturday afternoon.

Judge Bonnell spoke just before Mr. Ryan and immediately after Mr. Jenkins. The first part of the speech was well received and brought out a vigorous round of applause, but when the Judge began lambasting Congressman A. Mitchell Palmer and Vance C. McCormick, the former by name and the latter more inferentially, staunch Democrats in the reception room and the corridor of the club house began to look askance. Later, when the speech broadly hinted that the power of the national administration was being improperly used in Pennsylvania through the distribution of postmasterships and other federal offices, glances of amazement went the rounds and there were disapproving whispers. Members of the club were plainly in no mood to hear anything approaching disparagement of the administration even if the President was not singled out by name.

Party men present were amazed at the turn of the speech which was plainly hostile to the regular organization of the Democracy as a speech might have been before a club of opposing political faith. It was the opinion of many who heard Bonnell that his talk was damaging to the interests of Mr. Ryan, whose campaign manager the Judge is.

Mr. Ryan's face was a study while the tirade was in progress. When he spoke briefly before leaving for the Park Hotel Station of the Pennsylvania Railroad to take an afternoon train for Harrisburg, he steered clear of the ground covered by his campaign manager. Personal and political friends of Mr. Ryan denounced Bonnell's speech after the meeting was over as being in bad taste.—Williamsport Sun.

In the event of war with Mexico the first man to enlist in Pennsylvania should be Boies Penrose. He has been screaming for "armed intervention" to protect American dollars ever since Madera lost his grip on the situation. We unanimously nominate Boies for Colonel of the Standard Oil Regiment Pennsylvania Conscription G. O. P. Veteran Officeholders.—Clearfield Republican.

Up to this time not a single instance has been shown where the present Democratic State organization has "peddled" or "sold" a single federal position. Columns of charges have been printed in the Republican and Ryan papers, but up to this time not one such specific case has been proven. Until you are furnished with the absolute proof of such charges, all decent, sensible men will discountenance such contemptible work. It is easy to make unfounded charges, honorable men will not engage in any such work.—Centre Democrat.

We still hear much talk from certain partisan sources to the effect that the National administration is not interested in the Pennsylvania campaign. It would be interesting to know from these same sources why two members of the President's cabinet, at his express wish and with his full approval, come into Pennsylvania to speak on behalf of a clean Democracy and to pay particular tributes to the reorganization candidates, if the National administration is not interested.

But an administration which is interested in putting Tammany Hall out of control of the Democratic organization in New York, in keeping the Smith-Nugent ring out of control in the State of New Jersey, in placing the Democratic organization of Maryland into clean, progressive hands, in having the Indiana Democracy take its position among the progressive Democratic organizations, and in seeing that the North Carolina Democratic party does not fall back into reactionary hands, might well be expected to be interested in the Pennsylvania contest, which is identical in principle with all these. From the moment that the contest in the Pennsylvania primaries began with an announcement after a conference with the President in the White House, there has never been any doubt in the minds of the progressive Democrats of Pennsylvania where the administration stood in this contest, and it will take something more than denials from bipartisan sources to shake the faith of these Democrats in the purposes and policies of the Wilson administration.

THIS IS CERTAIN

The Proof That Bedford Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time. Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Grateful endorsements should prove undeniably the merits of this remedy. Years ago people light in this locality testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say that time has completed the test.

James Oler, N. Spring St., Everett, Pa., says: "I would be hard to describe the misery I endured from rheumatic pains and kidney trouble. I was lame and sore and hardly able to attend to my work. My back ached all the time and I had sharp twinges in my sides. A friend advised me to try Doan's Kidney Pills and I got a box. I was surprised by their promptness in helping me. I continued using them and they cured me. I am glad to confirm my former endorsement of Doan's Kidney Pills. I use this remedy occasionally and it benefits my kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Oler had. Foster-Milburn Co., Buffalo, N. Y.—Adv. 24Apr27

How to Beautify the Hair
A Simple and Inexpensive Home Method

If your hair is not pretty; if it is losing its color, too dry, matted, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, stimulating them and furnishing the nourishment that is needed for the hair to grow not only long and glossy, but fluffy, soft, lustrous and heavily radiant.

You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from F. W. Jordan, Jr., or at any drug store. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give your hair new life and beauty.—Adv. May 1 2t.

STRAWS IN DEMOCRATIC WIND

Philadelphia, April 25.—Vance C. McCormick, Democratic candidate for Governor, "Farmer" William T. Creasy, Democratic candidate for Lieutenant Governor, and Congressman A. Mitchell Palmer, Democratic candidate for United States Senator, invaded what they supposed to be the enemies' country this week, in a series of more than 25 meetings in this city, and 50 more in the counties of Bucks and Montgomery, and have stirred the Democrats as they have not been aroused in a generation. They received notable greetings at a reception at the Democratic Club in Philadelphia on Monday night, attended by hundreds of active workers, and in the Eighth Senatorial Districts of Philadelphia County also held splendid meetings. They were accompanied in the tour by Ex-State Treasurer William H. Berry; Robert S. Bright, candidate for Congressman-at-large; State Chairman Roland S. Morris; Frank Stephens, a well-known single taxer, and others. All the speeches of the candidates and their friends avoided any personal attack upon the opposition candidates, but pointed out clearly that the success of the opposition meant the repudiation of the Wilson Democracy in Pennsylvania, and the establishment of the "Old Guard" in the control of the Democratic party, which meant continued defeat and disgrace for the party in Pennsylvania.

Congressman Palmer, who was detained in Washington the first few days of the week by the Mexican crisis, forcibly called the attention of Democrats to the necessity of standing by the President at this time, and declared that any Democrat who opposed the President would be compelled to salute the flag. As a result of their week's campaign, all the candidates were confident that they will at least split even in Philadelphia, and will receive a majority of the votes in the surrounding counties.

Chambersburg, April 27.—The Young Men's Progressive League of Franklin County, organized during the campaign of 1912 to support President Wilson and the reorganization, has unanimously endorsed the candidacy of A. Mitchell Palmer for United States Senator and Vance C. McCormick for Governor.

Gettysburg, April 24.—The students of Pennsylvania College at Gettysburg have organized a strong Palmer-McCormick Club, in which several members of the faculty of the institution are also active. More than 100 students, all of voting age, are enrolled, and the club will hold weekly meetings hereafter.

Harrisburg, April 25.—Congressman A. Mitchell Palmer, Democratic candidate for United States Senator, and Vance C. McCormick, Democratic candidate for Governor, have filed supplemental petitions with the Secretary of the Commonwealth, bringing the total number of their signers on file with the Secretary to more than 53,000 each. Both candidates have attached as many more names as they had to their petitions which will not file, while their petitions are still coming in at the rate of many hundreds a day.

Petitions aggregating about 20,000 names have been filed with the Secretary by the friends of Michael J. Ryan.

Harrisburg, April 23.—An enthusiastic McCormick rally in the Tenth Ward at Harrisburg was addressed by men who had been employed by Vance C. McCormick, and who had grown up with him in this city. They told how the McCormicks had paid higher wages to their workmen than were paid by other employers; how under McCormick's Administration as Mayor of Harrisburg employees received higher wages than were paid by private employers; how McCormick as Mayor personally helped the families of men who were to go to jail. Reports from the precincts showed a sentiment of 10 to 1 for the reorganization candidates.

Teaberry

[Held over from last week.] April 21.—Mrs. C. A. Wertz returned from a visit in Altoona last Tuesday.

Miss Grace Wertz is spending a week or so in Bedford. The Teaberry school closed a very successful term last Friday and the fourth and fifth grades presented their teacher with a nice present.

The Teaberry citizens joined with the school and had an entertainment. The house was crowded and all present seemed to enjoy themselves.

Mrs. J. C. Howsare spent Monday and Tuesday at Centreville.

Friend's Cove Reformed Charge

Walter C. Pugh, Pastor Sunday, May 3.—Sunday School at all the churches at 9:30 a. m. Divine worship at the Cove Church at 10:30 a. m. and election of officers. Junior Class will convene May 4 at Centreville and General Synod May 12 at Lancaster. This charge will be represented by the pastor and one elder in both meetings. WASHINGTON LETTER

Communication From Correspondent at National Capital.

Washington, D. C., April 28.—War, war, war everywhere you go nothing but war and its horrors is heard, the past week having given up solely to the passage by Congress of a joint resolution "justifying" the President in blockading the ports of Mexico, seizing the custom houses and other public offices in the cities and establishing American supremacy, even though it cost many precious lives. After this had been accomplished, although the resolution as adopted by the House was considerably broadened by the Senate, the name of General Huerta being stricken out as having the appearance of making war upon a single individual, the members of both branches of the national legislature indulged in oratory over the private soldier and what was expected of him.

Probably no more dramatic recital of a great achievement has been heard in the halls of Congress for many a day than was the simple, unaffected story of Captain Hobson, who told how he and seven picked men sank the Merrimac under the guns of the Spaniards, how they were taken prisoners and how they were liberated. While Captain Hobson failed to bottle up General's fleet, yet the undaunted courage and the attempt will remain an imperishable record of bravery under fire.

So tense has been the situation the past week that Congress has done little in the way of public business, even the committee hearings being perfunctory and without heart or spirit, with the possible exception of the hearings now going on before the Inter-oceanic Canals Committee of the Senate with reference to the bill repealing the free tolls section of the act providing for the civil administration of the Panama Canal and zone. These hearings have brought to Washington a very large number of the big men of the nation, big in law, in commerce, in economics and in trade. Even the women have been participating in the hearings, showing the wide interest the subject has aroused. Had not war obtruded itself, it is believed that these hearings would have taken the center of the stage and held it until action had been taken on the bill itself.

The display of flowers, jewels and clothes at the twenty-third annual congress of the D. A. R. holding its sessions in Washington this week, represents something into the hundreds of thousands of dollars every day. The President General of the Society, Mrs. William Cumming Story, never wears anything but lavender, heliotrope or purple. She appears in a different costume every day and every evening, always in some tint of those shades varying from the palest to the deepest. The daisy is her emblem. Her friends and constituents wear a silver pin, the perfect reproduction of a daisy in filigree work, as an inevitable article of adornment. She always wears a daisy or daisies somewhere about her gown. In her choicest bouquets orchids, gardenias and lilies of the valley, such as she always has on specially important days, the gift of her adoring husband, a daisy may invariably be found tucked away in the midst of it.

Among the last public appearances of the daughter of the President, Miss Eleanor Wilson, and Secretary of the Treasury McAdoo, before their own wedding, was their presence a few days ago at the wedding of another Washington belle, Miss Maitland Marshall, and Paymaster Knapp of the Navy. Miss Wilson was a bridesmaid for Miss Marshall, wearing a costume of the shepherdess variety, with a shepherdess hat of leg-horn with pink roses and a blue bow. Miss Wilson was prettier in it than in any she has yet worn, and she and her distinguished fiancé were the observed of all the observers, for the White House wedding, May 7, is rapidly approaching. Mr. McAdoo and Miss Wilson, by the way, would make a fortune on the professional stage with the Tango, the Hesitation and the Maxixe, so light, agile and skillful are both the President's daughter and the Secretary of the Treasury.

Will Increase Realty Values

State Highway Commissioner Marker of Ohio estimates, that among other benefits which the Lincoln Highway will bring to this country, land along the Way will increase in value more than \$50 an acre, within ten years. This is an angle well worthy of the consideration of the most practical of men. There are 640 acres along each side of the Highway every mile, that's 1,280 acres per mile of 4,352,000 acres of land actually touching the edges of the Way. An increase in value of \$50 an acre therefore means over \$217,600,000 actually added to the wealth of the country in real value, a value that will last forever. Is the investment of \$25,000,000, to accomplish this, worth while?

KILL THE CATARRH
GERM-USE HYOMEL

It's the direct-to-the-spot method—you breathe it. Do not delay and continue to suffer from catarrh, head colds, bronchitis or sniffles. It is not only needless and annoys your friends, but dangerous to your general health.

Begin the Hyomel treatment at once. It is one of the easiest, quickest, and surest ways to clear the head and quickly and permanently banish catarrh.

Hyomel being medicated air immediately reaches the sore and irritated membrane and tissues—its antiseptic and germicidal healing begins at once.

You will surely like Hyomel—its relief is not only immediate but lasting. Money refunded by F. W. Jordan, Jr., if you are not satisfied. Get the complete outfit—\$1.00 size. Druggists everywhere. Hyomel—Adv. 24Apr 2t.

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated, non-alcoholic Scott's Emulsion is infinitely better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh—its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S.

Mt. Zion

[Held over from last week.] April 22.—Some very nice rains visited our lands recently which are a great benefit to the crops.

Michael Robinette of Chaneyville will have a public sale at his residence on Saturday, May 2, after which he will move onto a farm near Rock Hill.

Mrs. William Trail spent last week visiting friends and relatives on Town Creek.

Miss Gertrude Robinette of Cumberland returned to her home last Sunday. She is now working for Michael Robinette of Chaneyville.

Misses Ada Swartzwelder and Myrtle Robinette of Chaneyville went to Clearville to Normal School this week.

Miss Jessa Means of Hewitt visited her home on Saturday and Sunday.

Miss Daisy Dicken of near Flintstone visited at her home Saturday and Sunday. She also spent Sunday night with her brother, William Dicken, of near Glee.

J. S. Barney of Clearville purchased a lot of fine hogs from Joseph Northcraft recently.

The schools of Southampton are about all near the closing time; a few will be later on account of the small crop.

Rev. Elliot preached his first sermon on Sunday at the Methodist Church in Chaneyville. He will preach again Sunday evening, May 3rd.

Co-Operation Between City and Country

A correspondent writes to ask if there ought not to be a closer co-operation between the city and the country. He speaks particularly of the constant tendency among people living in cities and towns, to ridicule the dwellers in the rural outskirts as "Reubens."

One of the surest ways to raise a laugh at a theater is to work off a joke on some outlying village. This is symptomatic of a contempt of country life felt by many people living in the larger towns.

The townsman pays his price for this sentiment. He is having today to pay high prices for his meat and his eggs and his corn, simply because there are not enough people engaged in farming. One reason why so few people are farming is that the calling has been discredited. Country people have been held up as a laughing stock in every comic newspaper. No farmers' boys and girls dislike to follow an occupation that is commonly treated as rustic and absurd. Hence many vacant acres, where there should be growing grain and gardens to feed the people.

There ought to be the closest co-operation between every large town and the outlying country. The centers of population should contribute willingly for good schools and good roads for the country. People will not live on the farms willingly unless they have these and other essentials of modern civilization.

On the other hand, the farm people make a mistake to be jealous of or hostile toward their urban neighbors. The nearly town is the sure and profitable market for their products. When they send money away to distant mail order houses, they strike a blow at the town that buys their own products. The distant mail order house never uses any of its own produce or grain or vegetables.

THE FACTOR OF SAFETY

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D.

The engineer who plans a bridge or a skyscraper makes his calculations, based upon the strength of the steel then he adds the factor of safety. After considering the breaking strain, which tests have shown material will stand he generally multiplies this by three for additional security.

In the physical structure of our bodies there is included a factor of safety. Under all of the ordinary conditions of life this margin protects us. It takes care of the strains incidental to the rational existence for which the calculations of the Creator evidently intended us.

When the body is exhausted by over-work and under-feeding or by dissipation and excesses this factor of safety is so reduced that it fails to protect and we become easy victims to communicable or organic disease.

While modern conditions of living make exceptional demands upon us these are more than offset by the improvement in living conditions, as statistics prove that the average span of human life is being gradually lengthened. The thing which we should guard against is excessive and irrational indulgence. Ordinarily our intelligence is a sufficient guide if we permit it to govern us. It is seldom that we presume upon our strength without being aware of the fact.

Be temperate and the factor of safety will carry you through the requirements of your every-day work.

The President and Panama

Collier's Weekly, a great progressive magazine, completely demolishes the argument against the President's Panama Tolls position in the following vigorous editorial published last week:

"From Philadelphia comes the following letter, signed C. H. Kirk:

"Why don't you stand on the side of the Nation and call the States to arms to defeat the unworthy surrender of the Panama Canal, notwithstanding your snap judgment to the contrary of a few weeks ago? Or shall it be said that Collier's too is for special privilege?"

"As Mr. Kirk does not favor us with his address, we will give him his answer here:

"Your letter is an admirable specimen of the loose-thinking and loose writing that people use who read dishonestly edited newspapers.

"Just where did you get your idea that anybody in this country plans to 'surrender' the Panama Canal, or for that matter the Gowanus Canal, to any foreign nation?"

"The proposition, as Collier's understands it, is: Shall the Shipping Trust pay for the privilege of using the Panama Canal—which has cost the United States a good many million dollars—or shall the people pay one more tax to 'special privilege' by 'surrendering' the canal to combined shipping? Giving something for nothing is generally bad policy for any individual or any nation.

That is the Wilson idea of this matter, and the Goethals idea and the idea of Rear Admiral Stockton, and Collier's idea.

"Confessedly, the canal's service is a great one. If you know of any reason why you and the editor of Collier's should pay no fare on street cars because we happen to be American citizens, you will also be able to explain why American shipping shouldn't pay its fare through the Panama Canal.

"By all means let us subsidize our shipping if subsidy is a wise economic policy; but if we are going to do it, let us do it honestly and with our eyes open."

TERRIBLE SORES

No Matter How Chronic, Ed. D. Heckerman Guarantees San Cura Ointment to Give Relief and Often Permanent Cure.

"My daughter was troubled for over a year with a fever sore on her leg, and was helpless in bed for three months. To the great surprise of all, including the four doctors who had attended her, San Cura Ointment healed the great sore in less than six weeks."—J. D. Hood, Townville, Pa.

Karl C. Banks, of the Atlantic Refining Co., of Pittsburgh, had a sore on his ankle for a year. He doctored, and tried various remedies, without relief. He says: "San Cura Ointment worked like a charm; reduced the swelling and healed the sore in two weeks."

Bear in mind that besides sores, San Cura Ointment is used with great success in eczema, boils, carbuncles, salt rheum, tetter, also itching, bleeding and protruding piles. In cases of burns, scalds, cuts and bruises, San Cura is most valuable. The price is only 25 cents and 50 cents a jar, and Ed. D. Heckerman guarantees it.

Complexion Soap

If you want a lovely complexion, with soft, velvety skin, free from pimples and blackheads, use San Cura Soap, the great antiseptic and skin purifier. 25c a cake at Ed. D. Heckerman's.

If you can't get it at your druggist send to the Thompson Medical Co., Titusville, Pa.—Adv.

"THE GREATEST KIDNEY REMEDY ON EARTH," SAYS A GRATEFUL WOMAN

I want to tell you how much good your Swamp-Root did me. About four years ago I suffered from what the doctors called fistula and for two years of that time I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

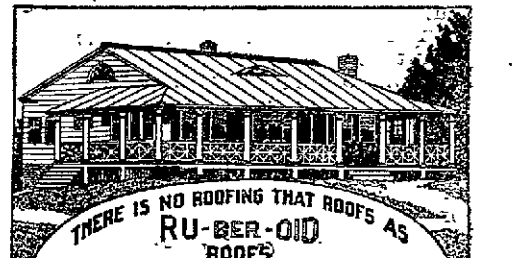

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth. Respectfully yours,

MRS. JOHN BAILY, Portland, Ind. Subscribed and sworn to before me this 12th day of July, 1909. C. A. Bennett, Notary Public.

FRIDAY MORNING, MAY 1, 1914.

Conditions have so shifted that there seems to be a decided atmosphere for establishment of peace not only between United States and Huertia but between Huertia and Caranza. The two faction leaders in Mexico. Caranza has expressed his willingness to enter as a party in the mediation plans.

Since the constitutional army in Mexico has been winning battle after battle and steadily forging its way towards the capital, less criticism is heard from those Americans who were quite sure that the administration's Mexican policy was a mistake. The President's decision to raise the embargo on arms made it possible for Villa to make his triumphal march southward.

During the four months ending with February 28, 220,000 unskilled laborers were passed through the gates at New York City and were scattered broadcast throughout the United States. We would like to know who brought these ignorant people here during the dull season and for what purpose? Is the Republican party behind these ungrateful acts? These people were induced to come here in the dead of winter, at a time when shelter is impossible, public works are at a low ebb and they so poor that they cannot provide for the necessities of life. Monopoly does it and monopoly is the Republican party.

Twenty-eight steamship lines, representing 235 steamers of 549,821 gross tons, are all that use the Canal for coast-wise trade from the Atlantic Coast. Ten of these lines or companies are owned by railroads and the others are owned by corporations extinct from railroads. Do you want to surrender the Panama Canal to a monopoly so small as that? The Democratic party is not in favor of giving the whole thing to a few. Let these few pay for their rights the same as a private individual. Suppose the United States owned the railroads and then allowed the Standard Oil Company to transport free over the lines. Wouldn't you howl? Sure you would! All Democrats would. "Special privileges to none, equal rights to all." Republicans always have and always will adhere to the principle: favor the few at the expense and burden of the many. They, of course, would want the Standard Oil Company or any monopoly to get free service over our railroads, canals or any other utilities and in return expect a rich return of campaign contributions to carry elections. The Republican party has no use for any body or any thing that will not give liberally for its maintenance. Its goal is money, its ambition is money; its plea is money; its idol is money, its song is monopoly and privilege for money and money only.

THE PEACE PLAN PROGRESSES

A year has not yet passed since the peace plan was proposed and fourteen treaties have already been signed. Six more will be signed within a short time and then more than one-half of the population of the world will be bound to the United States by treaties which will prevent war between our own and any of these nations until after investigation of the cause.

How Paint

The first cost of a good job of paint—Devco—is \$50 (average size, of course). The first cost of a second or third or fourth rate job, \$55 to \$100.

The wear is likewise. The better you paint, of course, the longer it wears. And the more you pay for your job, the shorter it wears!

Devco is one of a dozen good paints. There are hundreds of bad ones. As likely as not, Devco is the only good one in this town.

SUNDAY SCHOOL NEWS

Convention in June at Everett—O. A. B. C. Work in the County.

The County Sunday School Association announces that the County Convention will be held in Everett, June 4 and 5. Let every Sunday School in the county get ready for the convention.

At a recent meeting of the County Executive Committee the following plan of work was adopted as a plan of activity and goal for the Organized Adult Bible Class work of the county: Five classes, each with one hundred members; twenty-five classes, each with fifty members; fifty classes, each with twenty-five members. It was felt that this was not asking too much for the O. A. B. C. work of the county. We have 59 registered classes. But we have learned that there are several classes in the county that have not applied to the State for a charter. If your class is one of these, please attend to this work at once. If your Sunday School does not have an O. A. B. C., please organize, and send for a charter before the county convention.

If you have one or more O. A. B. C. classes in your school, please build them up so as to count one in the above groups. If possible have one class with 100 members; have at least one or more with 50 members; and surely you can reach 25 members. Do what you can to have this work in a better condition before the county convention. Do it now. Do not delay.

We report another O. A. B. C. organized in the Church of the Brethren, Saxton, mixed, with 42 members; President, B. Miller; Teacher, Rev. S. I. Brumbaugh. What class will be the next?

Work For Young Men

The State Young Men's Christian Association of Pennsylvania is pursuing an admirable plan by which young men in towns and villages without associations may be accorded some of the advantages of the organization. The State Committee is appointing in these places a representative, known as a Corresponding Member. His chief duty is to keep the State Office informed when any young man leaves home to settle elsewhere for any purpose whatever.

The State Committee forwards this information to the association or church of the place in which the young man is to locate. He is met cordially and helped in finding a congenial home, in securing employment, and is introduced to the helpful influences and Christian fellowship of his new environment.

The Corresponding Member will also arrange for meetings in the interest of the young men of his community, and furnish information regarding association work. Almost every city in the country has its Young Men's Christian Association, which stands ready to serve to the extent of its ability any young man who may come to them. To its members the association provides social parlors, evening educational classes, entertainments, lectures and practical talks, gymnasiums, employment bureaus, boarding-house registers, classes for Bible study, young men's meetings, etc. These privileges are offered at so small a fee that any young man can afford them. There are now 179 associations in cities, towns, colleges and among railroad men in the State of Pennsylvania besides Corresponding Members in many of the smaller places.

There is a very general demand for the extension of the association work into the smaller towns and villages and rural sections of the State, the State Committee is undertaking the inauguration of county work, which federates the villages and rural communities of a county and secures a County Secretary to lead in work for men and boys. The Corresponding Member cooperates in this extension of the association's activities in aid of local young men.

The State Committee has recently appointed Albert S. Pensyl as Corresponding Member for Wolfburg, Pa., R. D. No. 1. He will gladly give any aid or information about work for young men that may be in his power.

Partisanship and Patriotism

Public men are not often called upon to face so crucial a test of their patriotism and intelligence as the one now being presented in Washington. Pennsylvania voters are not often afforded so splendid an opportunity to judge the fitness of their representatives as is now presented to them by the conduct of Penrose and his cohorts in Congress. In all his long career, Senator Penrose has given no clearer demonstration of his own peculiar weakness as a spokesman for Pennsylvania than he gave in the Senate of the United States last week.

There is one time when partisanship becomes not only foolish but vicious, and that is when the country is involved in delicate controversies abroad, and when the moment has arrived when the responsible heads of the government are compelled to use armed force to uphold the dignity and honor of the American nation. It is doubtful if ever before in history the national honor, the lives of the American soldiers and sailors, and the rights of the American people have been so brazenly and insolently disregarded in the desperate hope of securing a political advantage for a discredited party, and a discredited leader, as in the present emergency by Pennsylvania's Senior

Senator.

What Senator Penrose has done is typical of the attitude and the conduct of the leaders of the national party which he has helped to bring into dishonor and disgrace. No party, whose future depends upon industrial calamity at home and military disaster abroad, can hope to save either its own self-respect nor the confidence of the American people.

In this supreme test, when hope of early and continued peace depends upon the united and whole-hearted support by Congress and the people of the prompt and direct measures adopted by the President, Penrose is found among those who would proclaim to the world that the councils of the American government are divided, that there are in places of authority and power in the American Congressmen who give only grudging support to the head of its army and navy and to its spokesman in international relations. No smaller, meaner or more foolhardy position has ever been taken by a Pennsylvania Senator, and he will find that the people of Pennsylvania demand in their representatives honesty, patriotism and intelligence.

You will be pleased with our neat job work. Give us a call.

New Bulletin of the Department of Agriculture Describes Its Value.

Washington, D. C., April 28.—A number of ways in which the early appearance of crimson clover in the spring can be turned to the farmer's advantage are pointed out in a new publication of the United States Department of Agriculture, Farmers' Bulletin 579, "Crimson Clover Utilization." In the Southern and Central Atlantic States this crop is of particular value. Generally speaking it suffers from the severe winters in the north and from too great dryness west of the Mississippi. In Florida also it has proved less successful than elsewhere.

Crimson clover, says the bulletin, has two great advantages. It is an excellent fertilizer and it can be used for pasture and hay before any other green growth is available, the land being then sown with an ordinary summer-grown crop. The clover itself can be sown toward the end of the summer on land where such late crops as corn or tomatoes are still under cultivation. Its use, therefore, does not interfere with other products and its benefits cost little but the labor and seed involved.

To obtain the full value of crimson clover as a fertilizer, the entire green crop should be plowed under, thus adding to the soil a large quantity of nitrogen and humus, or decayed vegetable matter. The poorer the land the greater is the benefit that the succeeding crop derives from this process. A yield of 30 bushels of corn per acre may ordinarily be increased by crimson clover to 45, but on richer land an increase of more than 10 bushels is uncommon. A convenient method of calculation is to consider a full crop of crimson clover, weighing with roots and tops, about 10 tons an acre, as the equivalent of a distribution of eight tons of fresh barnyard manure to an acre. In this way the soil is greatly enriched each year without interfering in any way with the regular money crops, such as corn, cotton, or tomatoes.

It is, however, by no means necessary to sacrifice the entire crop of crimson clover to fertilizing purposes. Excellent results can be obtained by ploughing under merely the roots and stubble. This it is estimated returns to the soil 40 per cent. as much nitrogen as the green crop. When this is done the clover itself can be used either for pasture, before ordinary grass is sufficiently far advanced to be available, or for hay which can be gathered in time to leave the land free for another crop.

Crimson clover intended for hay must, however, be cut at the right moment, when the most advanced heads are beginning to show faded flowers at their base. At this stage the plants contain the maximum amount of protein and dry matter, while the leaves are still present and stems comparatively green. If the harvest is put off, the short hairs on the stems and flower heads become dry and stiff. In this stage there is danger that they may form hard dry hair balls in the intestinal tracts of horses and mules to which the hay is fed. These hair balls, solid, compact felt-like structures, nearly always cause death. Early cutting, however, and judicious mixing with other hay will obviate this difficulty to a great extent, and, under any circumstances, cattle are rarely affected. By dairymen, crimson clover hay is considered a roughage feed fully equal if not superior to either red or alsike clover.

For early pasturing crimson clover is even more satisfactory, its chief drawback being the limited period in which it can be utilized for this purpose. This period, however, is ample to enable the ordinary grass pastures to attain a growth which will greatly increase their carrying capacity later in the season. After the cattle are removed, the uneaten plants and the manure left behind are ploughed under, the manure of course, forming a valuable addition to the fertilizing effect of the clover.

As pasture, hay or fertilizer, therefore, crimson clover offers itself to farmers at a time when the ordinary summer-grown crops are not available. Incidentally, it should be said, this clover is valuable for poultry. A tubful of hand-cropped leaves thrown into the poultry yard will provide the chickens with the best possible green food at a season when eggs are ordinarily high and everything that promotes laying is most welcome. Small patches of crimson clover are, in fact, grown by poultry raisers for this purpose alone.

Methods of growing the crop, the preparation of the seed bed, and the soils and sections best adapted to the purpose are discussed in a previous publication of the Department of Agriculture, Farmers' Bulletin 550, "Crimson Clover; Growing the Crop." Both this bulletin and the new bulletin "Crimson Clover; Utilization," will be sent free on request.

Lippincott's for May

There's a tang and a snap to Lippincott's fiction that not only holds the reader's attention all through, but makes him look forward impatiently to acquiring the next number. The complete novel is "Candle-Light" by Dorothea Deakin, long a favorite with magazine readers. A very timely special article called "Common Sense in Education," by Colonel Willard French, has to do with vocational training in the public schools. There are many good short stories and poems of rare merit in this issue. Then there are many pages of jokes, jingles, and anecdotes grouped under the head of "Walrus and Wine." Motoring news and information is supplied by the automobile department "Twentieth Century Travel," conducted by Churchill Williams.

Pertinent Political Paragraphs

Standard Oil Foraker of Ohio, who received a \$50,000 check, and Standard Oil Penrose of Pennsylvania, who received a \$25,000 check, are both trying to come back. They make a fine G. O. P. Standard (Oil) bearers.

Why should not Penrose sympathize with Huerta? In many ways the bosses are a good deal alike. Huerta is wrecking his country, and Penrose his party. Both prefer ruin to abdication. Oblivion awaits both.

Not satisfied with the campaign stump, Penrose now takes to the pulpit to attack Wilson and Palmer. He makes a great preacher in Satan's cause.

General Bragg said of Cleveland: "We love him for the enemies he has made." Pennsylvania Democrats have much the same feeling toward the leaders of the party in this State and the reorganization candidates.

The bi-partisan enemies of the Democratic State organization started their campaign with a cry for harmony. Their idea of harmony seems to be to accuse the leaders of the State party, and the representatives of the Wilson administration, of all the crimes on the calendar. At mud-slinging they have Palmer and McCormick beaten a mile.

No man can be elected on the Democratic ticket this year who has entangling alliances with discredited bosses and Penrose allies. Democracy and Penroseism are diametrically opposite. The same cannot be said of Hallism and Penroseism.

The new Manufacturers' Club in Philadelphia cost three million dollars. The Union League, composed largely of manufacturers, proposes to spend another million. Manufacturers must feel rather prosperous, in spite of the Underwood tariff.

"You may break, you may shatter the gang, if you will.

But the odor of Penrose will hang around it still."

American Magazine

One of the most important contributions to the May American Magazine is a remarkable character sketch of Woodrow Wilson written by Ray Stannard Baker, who has been called "the greatest reporter in the world." Other highly interesting articles are: "Experiences of an Airman," by Augustus Post; "They Who Knock at Our Gates," "The Auto Game in Homeburg," "The Business of Being a Burglar," and "A Husband's Story." Much fiction and humorous sketches have been contributed. The Theatrical and "Interesting People" departments are full of good things, and the prize-winning letters are published in the contest entitled "The Person Who Looks Like Me." In these letters remarkable cases of double identity are reported.

Lincoln Highway Notes

A three-story apartment house is about to be erected in Ashland, O., on the Lincoln Highway and will be named Lincoln Inn.

Governor George W. Clark of Iowa presided over a big Lincoln Highway meeting in Cedar Rapids, Ia., last week. This rally was attended by many of the most prominent Cedar Rapids citizens.

April thirteenth, A. R. Pardington addressed a gathering of representative citizens at Coatesville, Pa. They had been called together upon short notice by the Burgess, W. F. W. Jones, who is also Chairman of the Roads Committee of the local automobile club. Pardington touched upon the necessity for quick action, if the present route is to be maintained, and that his words had the desired effect upon the assembled citizens of Coatesville, can be gathered from the fact that the marking of the present route will be started at once under the direction of the Burgess and auto club.

Those present were: Misses Esther Kauffman, Florence Cuppert, Evelyn Reiley, Mary Sams, Mary Koontz, Bonnie Koontz, Elmyl Over, Lela Webster, Rose Rindy and Marlan Bloomer, William and Francis Adair, Samuel H. Fisher, P. E. Parmer, William Miller, Rudy Crissey, Benjamin Gump, London Gump, Harold Dillard and Clarence Smith. At 2:30 the guests retired to their homes complimenting the Alumni very highly for its efficiency in preparing and rendering the evening's program.

Civil Service Examination

Representative Warren Worth Bailey has been advised by the civil service commission that there will be an open competitive examination for tariff clerk, for junior railway signal engineer, for junior mechanical engineer, for junior electrical engineer and for junior structural engineer, for men only, May 20. For Pennsylvania these examinations will be held at Altoona, Harrisburg, Philadelphia and Pittsburgh. From the register of eligibles resulting from these examinations certification will be made to fill vacancies as they may occur in these positions in the interstate commerce commission. The salaries range from \$1,080 to \$1,500. Appointments will be made for duty in the field, but some may be for duty at Washington. Persons interested should communicate with Congressman Bailey, House Office Building, Washington, D. C.

CANOPIES ON THEIR HEADS.

People of Korea Wear the Largest Hats in the World.

What would you think of a hat that was so large it would safely shelter your father, mother, sisters and yourself under it should a sudden rain-storm come up? The men of Korea like these enormous hats and would not feel properly dressed without them. These hats look like great dower pots set on a round table six feet across. The crowns are nine feet in height and three inches wide, much like a chimney on a one story house. How do you suppose these large, round head coverings are kept on? Under the brim is a small, closely fitting cap, held on by a padded string which ties under the ears. The material of these hats is bamboo, so finely split that it is like thread, and lastly they are varnished to keep out the sun and rain and the wind.

You know that the Korean people always wear cotton clothing, so these big hats protect them far more than our hats possibly could. In the rainy season cones of oiled paper are attached to the big bamboo head coverings in the shape of funnels, so, I suppose, that the rain pours off of them just as water does off a duck's back. A Korean keeps his hat on when we should take it off. Soldiers wear black or brown felt hats decorated with red horse hair or peacock feathers, and hanging from the sides, over the ears and around their necks are oval balls of porcelain, amber and a queer kind of gum.—Sunbeam.

The Ungrateful Cuckoo.

To hear the cuckoo's cheery note you might think he had the clearest conscience in the world. He can have neither memory nor moral sense or he would not carry it off so gayly. The most disreputable of birds, as a rule, are guilty of nothing worse than peccadillos. The jackdaw will steal for the mere fun of the thing, for he can make no possible use of plate or jewelry. Sparrows are, of course, notorious thieves, but they rank no higher in crime than the sneaking pickpockets. But the cuckoo, so to speak, is a murderer from his cradle. He violates the sanctity of a hospitable hearth. His first victims are his own foster brothers, and before he tries his wings on the first flight he is imbrued in fraternal blood, like any Amurath or Bajazet.—London Saturday Review.

WATCHES

20 year Gold-Filled Elgin Watches - - - \$8.00
10 year Gold-Filled Watches - - - \$7.00

You, perhaps, don't know that there are two grades of 7 Jewel Elgin works, and five or six different grades of 20 year gold filled cases, but there are.

It pays, of course to buy the best, although the cheaper ones give excellent service.

Come in, and we will explain the difference and tell you just what you can expect from each.
